Ren,

Regarding our conversation on Monday, July 12, the information you requested follows.

A.U.M. Inc. intends to mine uranium ore in the next 30 days. This ore is being shipped for amenability tests and verification. We will rely on the exemption of two acres, or less, for the mine site, until such time as a permit has been issued.

Maps and legal subdivisions that you requested are not finished as yet by our engineers, Pullman-Terkelsen. These should be ready, along with a reclamation plan, on Friday, July 16, and will be forwarded to you on that date.

Your time and consideration has been much appreciated in this matter.

Sincerely

Mark K. Bowman
